👤 SUMMARY

I'm an aspiring Frontend Developer who loves building clean, responsive, and user-friendly web interfaces. I'm currently learning at NavGurukul and have hands-on experience with HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and basic Python. I enjoy working in teams, learning new technologies every day, and creating real-world applications that truly make an impact.

🧠 TECHNICAL SKILLS

Frontend

HTML, CSS, React.js

Database

Firebase, Supabase

Languages

JavaScript , Basic Python

Tools

Git, GitHub, VS Code, Vercel

Framework

Tailwind CSS

📁 PROJECTS

Escape the Room Game [🔗](#)

- Created an engaging puzzle game using HTML, CSS, and JavaScript, designed with a clean and responsive UI.
- Built a secure password-unlock system and a dynamic math-riddle engine that generates random challenges with instant validation.
- Enhanced the gameplay experience with smooth interactions and keyboard Enter-key support for quick access.
- Structured the project with clear, maintainable code and easy customization options for updating passwords, riddles, and UI elements.

E-Commerce [🔗](#)

- Developed a scalable full-stack e-commerce platform using NestJS, React, MongoDB, and Tailwind, featuring customer, admin, and seller dashboards with real-time updates.
- Implemented secure JWT authentication, complete CRUD operations, and optimized database models using Mongoose for smooth performance and reliability.
- Built a feature-rich user experience with product search, filters, cart management, order tracking, dark/light mode, and fully responsive UI enhanced with Framer Motion animations.
- Designed a modular, maintainable architecture for both frontend and backend, ensuring clear separation of concerns and easy future expansion.

Portfolio

- Designed and built a personal portfolio using React and Tailwind CSS to highlight projects and technical skills.
- Achieved 500+ views within the first month of launch by implementing a real-time contact form and dynamic project showcase.
- Deployed the portfolio on GitHub Pages and Vercel, making it easily accessible to recruiters and peers.

👜 EXPERIENCE

Discipline Coordinator

01/2025 – 03/2025

- I maintained overall discipline on campus by consistently enforcing rules, addressing behavioral issues, and guiding students toward respectful and positive conduct, which helped create a calm and organized learning environment.
- I collaborated closely with mentors and students to resolve conflicts, promote accountability, and conduct sessions on self-discipline and time management, contributing to a safer, more focused, and supportive campus culture.

Food Coordinator

04/2025 – 06/2025

- I managed the daily dining operations for 40+ students and ensured meals were prepared and served on time.

- I maintained high hygiene, cleanliness, and food-safety standards in the kitchen and dining areas.
- I coordinated with students and the kitchen team to manage resources smartly and handle feedback effectively.
- I supported learners with special diet needs or programs like Vipassana, ensuring a smooth and healthy dining experience.

EDUCATION

Web Development Course

NavGurukul [↗](#)

11/2024 – Present

Dharamshala, India
